Warrant for Annual Meeting

STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Wilton in the County of Hillsborough and State of New Hampshire, qualified to vote in Town Affairs:

You are hereby notified to appear at the Town Hall in said Wilton on Tuesday, the tenth day of March next, at nine o'clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers.
2. To bring in your ballots for the election of Delegates at Large, Alternate Delegates at Large, Delegates and Alternate Delegates to the National Convention of the various political parties to be held to nominate party candidates for President and Vice President of the United States.
3. To hear reports of town officers, agents and committees and pass any vote relating thereto.
4. To see if the town will grant the free use of the town hall for the following purposes: Roy Bent Post No. 10, American Legion, and the Wilton Fire Department for their annual party and Roy Bent Post No. 10, American Legion, for Memorial Day exercises.
5. To see if the town will vote to authorize the selectmen to borrow money in anticipation of taxes.
6. To see if the town will authorize the selectmen to administer or dispose of any real estate acquired by the town through tax collector's deeds.
7. To see if the town will vote to raise and appropriate \$300.00 for band concerts or take any action relating thereto.

8. To see if the town will vote to raise and appropriate a sum of money to be expended for the improvement of the park and playground or take any action relating thereto.

9. To see if the town will raise and appropriate the sum of \$2000.00 for the construction of the Isaac Frye highway, beginning at a point where past state aid construction left off, provided that the state will appropriate \$4000.00 for the same purpose.

10. To see if the town will accept state aid for construction of the Class II road known as Isaac Frye highway and raise and appropriate the sum of \$2716.00, the state to give an equal amount, or will accept state aid for construction of Class V roads and raise and appropriate the sum of \$616.36, the state to give \$2465.46.

11. To see what action the town will take relative to the improvement of Vale End Cemetery, raise and appropriate money for same.

12. To see if the town will vote to buy the chairs now being used in the town hall or take any action relating thereto.

13. To see if the town will vote to buy any additional gravel bank near the present town gravel bank or take any action relating thereto.

14. To see what action the town will take relating to the collection of garbage.

15. To see if the town will vote to appropriate the sum of \$150.00, or any other sum, to promote and advertise the town through the Monadnock Region Association or take any action relating thereto.

16. To see if the town will vote to build permanent sidewalks or take any action relating thereto.

17. To see if the town will vote to raise and appropriate money for the purpose of buying new snow equipment.

18. To see if the town will vote to buy a stone crusher or take any action relating thereto.

19. To see if the town will vote to refund any overdue notes issued in anticipation of taxes in accordance with Chapter 48, Laws of 1935, or take any action relating thereto.

20. To see if the town will vote to purchase additional land at Laurel Hill Cemetery, or take any action relating thereto.

21. To see what sum of money the town will vote to raise and appropriate to defray town charges for the ensuing year, including maintenance of poor, aid to dependent soldiers, old age assistance, highways and bridges, new equipment, interest, serial notes, health department including nurse, street lighting, water works, sewers, state and county tax, town officers' salaries and expenses, police department, fire department, care of cemeteries, patriotic purposes, town hall, memorial and town house lot, and miscellaneous items.

22. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 24th day of February 1936.

WILLIAM E. HICKEY,
DANIEL R. BATCHELDER,
J. E. BURKE,
Selectmen of Wilton, N. H.

PETER J. DUGAN,
Collector.

Report of Water Commissioners

Except for a short time in the month of July the supply of water has come from the old reservoir. At that time a thorough cleaning was given the bottom and sides under the direction of Mr. Shea.

The pipe line in back of the Woods farm was completed and a good job of cutting the grass and brush around the two reservoirs was done.

The Bent house was sold to Mr. Charles O. McGettigan, who took the house down and will fill the cellar hole in the spring.

Usual leaks and broken hydrants were repaired and replaced.

Before the new surface was put on Livermore street, new service pipes were installed in anticipation of houses on that street wanting water service in the near future.

In May 1935 the Stockwell reservoir was filled with water to twenty inches above the spillway. Without drawing on for consumption, the water dropped to the top of the spillway by the first of August. Under the same conditions the water dropped to thirty-eight inches below the top of the spillway by November 1. This means that there was really a drop of five feet during the summer months, without any being drawn for use.

The following measurements, taken from the weir below the sunken bridge show the leakage in gallons as compared to last year.

Height of Water	1934	1935
22 in. above spillway		155,000 gals.
Top of spillway	116,000 gals.	116,000 gals.
18 in. below spillway	92,800 gals.	116,000 gals.

26 in. below spillway	92,800 gals.	116,000 gals.
38 in. below spillway		116,000 gals.

Report of Trustees of Trust Funds

Robert E. Ring
David Whiting
W. L. Stanton

Chairman
Treasurer
Clerk

Two funds for care of cemetery lots were received during the year, making a total of 88 funds for that purpose.

The sum of \$207.50 was expended during the year for the care and improvement of cemetery lots.

The incomes from the Hannah Howard and Isaac Spaulding School Funds were paid to the Treasurer of the School District.

A statement is presented showing the amount of each fund with income and expense of each.

The sum of \$5.50 was paid to Wilton National Bank for rent of safety deposit box. This amount was deducted from income of Hannah Howard School Fund.

Respectfully submitted,

W. L. STANTON,
For the Trustees.

Report of Town Auditors

We have examined the books of the following town officers:

Trustees of Trust Funds.

Trustees of E. A. Newell Book Fund.

Trustees of the Wilton Public Library.

Judge of the Municipal Court.

Town Clerk: Auto Fees and Registration; Dog Licenses.

Water Commissioners: Charges, receipts and uncollected rentals and accounts.

Sewer Commissioners.

Selectmen's Books. Receipts and expenditures of the year. Invoices and payrolls presented for payment. Vouchers for invoices with Selectmen's approval for payments.

Tax Collector. Warrant for 1935 presented for collection, additional charges, interest and abatements were all checked and in agreement with payments plus abatements and uncollected list. Uncollected taxes of levies 1930, 1931, 1932, 1933, 1934 and 1935 have all been checked, listed and verified.

Town Treasurer. Outstanding temporary notes of the town have been verified. Bank balance reconciled and approved.

All receipts, payments and balances of the above accounts were found to be correct.

JOHN T. HURLEY,
PAUL V. HERLIHY,
Auditors of Town of Wilton.

NO SCHOOL SIGNALS

Three long blasts of the whistle sounded twice at 7:30 A. M. indicates that there will be no session of the schools during that forenoon. The same signal at 12:30 P. M. indicates that there will be no session in the afternoon.

REPORT OF THE SCHOOL BOARD

The School Board of Wilton submits the following report:

We have endeavored for many years to provide a special room for Junior High and High School pupils so they would not be compelled to study in rooms where recitations were going on. By careful planning we could provide the room, but we needed more teaching time. This figured out about half the time of one teacher. We also felt that the discipline and supervision of the High School could be much improved if the headmaster had some time free from classes. At the same time we gave consideration to the introduction of courses of study which would benefit those students whose finances did not permit them to carry their training further than High School. We have been carrying on a Mechanic Arts course for some years and our shop facilities are adequate for Junior High work, but for a good course throughout High School we would need a much more extensive shop with full equipment. For several years, therefore, we have given mechanical drawing in the High School and have not attempted any shop work. For a proper agricultural course we should likewise have a farm with suitable buildings and equipment. In both cases the set up and equipment would represent a large outlay and would require planning ahead for several years. One objection to such courses is that they take time from the standard studies of mathematics, English, history, sciences, etc., to such an extent that the pupil is not prepared to enter college if he should find it possible to do so.

Our best solution of these problems was to engage a teacher to instruct in a business course, to be given through only two years of High School.

The other half of the time of this instructor was used to lighten the load on other teachers so that there would be available teachers to supervise the study room. The equipment was not costly and was spread through a period of years. The business course has been welcomed by the students and has a large enrollment.

The Domestic Arts course has gained in enrollment with the growth of the school and for several years past has not had reasonably adequate equipment for the pupils. We had reached a point where either this course would have to be given up or radically improved. There is a large enrollment and of all the various special courses the school has offered we feel that this one has had the most approval of the Town. We therefore opened the three small rooms up into one large room, adding electric stoves and individual work benches, making a marked improvement.

These additions to buildings and new equipment and the additional instructor have increased our cost of operating the schools about \$2500 this year. We have an item of \$685 for insurance to pay next year as against nothing this year. We have had many requests to have the school buses pick up all children outside of the thickly populated area of the village. Our present transportation cost is \$2850. We can enlarge the facilities to carry more children by an increase to \$3200, and we have included this in the budget. Other items remain about as in the past year. Income will be less from tuition but more from other sources.

Various officials have worked hard the past year to obtain funds to complete the school playground, but funds have been consistently refused. Apparently we have no unemployed or do not rate high enough politically. This is a Town project and has nothing to do with the School District, except

we would like to see the mess cleaned up in front of the school.

We have kept in touch with the possibility of obtaining Federal grant for a new school building. So far only 50% is granted and the local community raises the balance. General opinion is that a large amount of the 50% grant is used up in elaborate supervision and due to many special requirements. We could use more room at the school, either by adding to present building or building separately, so that if any grants are available we should seriously consider them. If we are through the depression, there will be much building undertaken with consequent higher costs. This may be the cheapest time to build for some years. We suggest a special committee be appointed to follow this situation this year.

We feel that the rural school buildings should be sold to avoid repairs and painting. We have done little on them recently. The question of title seems obscure in some cases. We would suggest a committee be appointed to sell this property.

The school staff has done excellent work both individually and as a unit. The present group has been with us for a number of years now and we trust the work can be carried along without too many changes in the organization.

EDWARD J. ABBOTT,
ELIZABETH M. PIERCE,
GEORGE S. PROCTOR,
School Board.

BUDGET—1936-1937

Estimate of proposed expenditures in the School District of Wilton for the fiscal year July 1, 1936 to June 30, 1937, and recommendations of sums to be assessed, including statutory requirements.

ESTIMATED EXPENDITURES

Salaries of district officers	\$ 200 00	
Superintendent's excess salary	600 00	
Truant officer & school census	50 00	
Expenses of administration	400 00

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Wilton:

I respectfully submit my thirteenth annual report as Superintendent of Schools.

Supervision

While a considerable portion of a superintendent's time is occupied with administrative duties, his chief function is in the field of supervising the work of teachers and pupils. Supervision is accomplished in a variety of ways. By observation of the activities carried on in the school room during visits one gets a very good general impression of the standards of instruction and of the attitudes of the pupils toward the learning situation. The rate of progress in each grade and subject is checked by comparison of periodical reports from the teachers with certain standards of progress. The proficiency of the pupils in the skills they are acquiring and in the specific knowledge they are gaining is gauged by a series of standardized tests such as was outlined in the annual report a year ago. Another helpful source of information is contact with parents; constructive criticism from this source is always welcome, and without it one is apt to lose much of the personal and human element that should always be a guiding factor in supervision.

Teachers and Salaries

For the past several years it has been common knowledge that many qualified teachers were unemployed. This is still true in the high school field, except in Commercial and Domestic Arts subjects, but the surplus of qualified teachers for the upper grades has very nearly disappeared, and there is at the present time an actual scarcity of primary grade teachers. At a recent conference of superintendents the President of one of the Normal Schools made a strong plea for us to send to the Normal

Schools a larger number of students to be trained for teaching.

During the depression salaries in general decreased and reached their lowest point a year ago. Partial restoration of the reductions has been made in a large number of towns and cities this year, so that the average salaries are somewhat higher and the trend is toward further increases. This trend will of course be greater as the surplus of teachers diminishes and disappears.

Cost of Textbooks

The question is sometimes asked why the cost of textbooks runs so high each year. I have attempted an analysis of this cost. Each child requires from ten to fourteen different books in his progress through each grade, or a total of 92 for the eight grades. The cost of these is approximately \$66, or an average of \$8.25 per grade. These books wear out or become obsolete in from four to ten years, and the replacement cost on this basis is estimated at \$1.40 per pupil each year. Wilton has approximately 250 pupils in grades one to eight, so that textbook replacement would amount to \$350 a year. The average actual expenditure per pupil last year in New Hampshire was \$1.19. In Wilton the average annual expenditure for textbooks in the past four years has been \$1.02 per pupil. Each year a careful estimate is made of the needs of the coming year, based upon the probable number of pupils in each grade and the condition of the books on hand. This estimate appears in the budget.

Health Program

The Medical Inspection was made in September and October. The nurse, Mrs. Gilbert, assisted Dr. Powers with the boys, Dr. Rice with the girls, and Dr. Elkins with both boys and girls. Their findings are tabulated as follows:

Nature of Defect	Boys		Girls	
	Number affected	Corrections since last examination	Number affected	Corrections since last examination
10% Underweight	40	9	44	6
20% Overweight			21	
Pulmonary			5	5
Orthopedic	4	3	2	2
Cardiac	1			
Tonsil and Adenoid	54	19	31	12
Teeth	101	92	84	93
Vision	21	17	24	14
Hearing	2		4	
Posture	2		9	
Glands	1		4	
Skin	1	1	1	1
Pediculosis	1	1	1	1
Nervous			2	
Anaemia			2	2

For description of the follow-up work your attention is called to the report of the nurse which follows this report.

Repairs and Improvements

Extensive improvements and repairs were made last summer. The Domestic Arts Rooms were remodelled into one large room and new equipment was installed. The library was moved from the small room over the main entrance to a corner of the study hall, and the upper hallway was remodelled to facilitate traffic between periods when classes are changing.

The chief items of repairs needed next summer are painting the outside woodwork of the main building, redecorating several classrooms, and refinishing the laboratory table and several classroom desks.

The following improvements to the school plant are needed as soon as finances will permit. The first and most pressing need is for a better classroom in

place of the temporary quarters provided this year for the fifth grade. Adequate heat, light and ventilation are difficult to provide in this room.

The space to the left of the main entrance could be made into a suitable room for the music teacher, just as the space at the right was equipped for the nurse this year.

The classroom desks now in use in the laboratory should be replaced with larger desks as soon as possible.

The facilities provided in the basement of the Auditorium for showers and dressing rooms are inadequate. Space might be provided in the girls' basement for showers and lockers for the girls, and and lockers for the boys could be provided in the basement of the Auditorium. These improvements are needed for the pupils after some of their regular physical education work, and especially for the boys' and girls' teams following basketball practice and games.

State Aid

For several years past Wilton has not received state aid because the cost of maintaining the elementary schools has not been sufficient to require it. This is a result of consolidation and of the reduction in teachers' salaries. With a partial restoration of the former salary schedule this year, Wilton is again entitled to state aid. The allotment based on this year's budget is \$748.42, but this is reduced by adjustment credits of preceding years to \$156.05, which will be furnished for use next December. So long as present salaries and costs are maintained, or until the equalized valuation of the town increases, the annual allotment should be approximately \$700 per year.

Respectfully,

VERNON S. AMES,
Superintendent of Schools.

STATISTICS FOR FIRST TWENTY WEEKS—1935-1936

Census: Boys (5-16) 161; Girls 144; Total 305.

HEADMASTER'S REPORT

To the Superintendent and School Board of Wilton:

I herewith submit my fourth report as Headmaster of Wilton High School.

School opened in September with last year's faculty increased by one new member, Miss Patricia A. Thayer. Miss Thayer attended Boston University, later transferring to the University of New Hampshire from which she graduated in 1932. She has had three years of practical experience as teacher in the high school at Epping, New Hampshire, and has attended summer school at the University during one summer. Miss Ethelyn Edwards, now a full time music teacher in Wilton schools, has been able to devote even more time than before to music in the high school.

With the addition of another teacher to the faculty it has been possible to add courses in typewriting, shorthand, and bookkeeping to the curriculum, thus giving pupils an opportunity for a more varied educational experience than before. The increase in the faculty has also made possible a better organization of the school. Formerly it was necessary for pupils to study in rooms where classes were being conducted. Pupils studying under these conditions were unable to concentrate their complete attention on study; the teacher, faced with the necessity of conducting a class as well as keeping a group of study pupils in good order, was unable to do either task perfectly. With a larger teaching force it has been possible to practically eliminate such situations as more teachers mean more classes each recitation period, fewer pupils studying each period, and more teachers available to assume charge of a room used exclusively for study pupils. The discipline of the school and the efficiency of both teachers and pupils have notice-

ably improved as a result of this reorganization.

Full use is made of the school plant. Every classroom available is in use each period of the day. The Auditorium, used for all music classes, for all physical education classes of the lower grades as well as the high school, and for some clubs, is seldom vacant during the school day, and is in frequent use after school hours for varsity basketball practice, for interclass games, and for dramatic or musical rehearsals. At least one more classroom in the school building would be a real benefit to the high school and could be put to efficient use. The reorganization of classes described above has been possible in the present available space only by careful planning and by using the headmaster's office for two small classes. An increase in school enrollment might force a return to the old system of pupils studying in the same room with pupils meeting in classes, unless the school could have more room.

The improvements made in the building during the summer have proved to be a real benefit to the school. The removal of the partitions in the upper hall has relieved congestion between classes. Conditions in the main room have been improved by the removal of the platform and the alterations which made possible the location of the library in the rear corner of the room. Since the main room is used only as a study room, the location of library books there rather than across the hall is very desirable and convenient. The alterations making possible a separate office in the lower hall for Mrs. Gilbert have furnished her with more favorable conditions for her work. The new equipment in the domestic arts room and the removal of the partitions made a distinct improvement in conditions there.

Of last year's graduates two are in training at Hillsborough County General Hospital, one is at

Oak Grove Seminary, one at the Chandler Secretarial School, one at the General Electric Trade School, one at Plymouth Normal School, and one taking post graduate work in Wilton High School. One graduate of the class of 1934 is a post graduate student in Wilton High, and one graduate of the class of 1933 entered the University of New Hampshire last September, and another entered Harvard. These young people are doing satisfactory work at the various institutions mentioned.

The usual school activities, in which practically every pupil takes part, have been carried on this year. These include the weekly assemblies, clubs, Hallowe'en Ball, a very enjoyable senior play, athletics, and physical education classes. Plans are made for an operetta and the Junior Prom later in the year. Hot lunches at moderate cost have been prepared by the domestic arts girls for pupils unable to go home for the noon meal. At the present time different organizations of the school are broadcasting a play each month from the radio station in Manchester.

I wish to thank all individuals connected with the school and its activities for their kindness, co-operation, and interest.

Respectfully submitted,
HARLAN E. ATHERTON.

REPORT OF SUPERVISOR OF MUSIC

The course of music education in the primary grades has been carried on similarly to that of last year, but with the new time allotment I have been able to teach more often. In these grades the children are learning to express themselves by singing and also to understand some of the more simple compositions. The lessons in music appreciation have been enthusiastically received and have stimulated their interest in music. In both grades we have carried on a project in rhythm band which seems well worth while. In the second grade we begin the actual teaching on music facts and syllable reading, and therefore plan to lay the foundation for the entire course in theory.

The work in grades three to six, inclusive, includes three types of music work. First is the song singing. This is a continuation of the work done previously and aims to teach the children to sing correctly and to enjoy this, the most pleasurable as well as fundamental of all music education. Second is music theory. The aim of this is that the notation of music may be read and understood. This demands much drill work in syllable reading, music writing and ear training. The teachers of the various rooms have accomplished a great deal in these classes. Third is music appreciation. With the allowance this year of more time for music instruction, I have been able to introduce this very important phase of music education. In general I have devoted one lesson a week in each room to this. The response has been splendid and I feel that much of the success of our work in singing and theory is a direct result of the interest created by these lessons.

The new song books which the pupils of the Junior High are enjoying has stimulated interest in these classes. The music is interesting and instruc-

tive and forms a fine background for the work in appreciation.

Three types of music work are carried on in the High School, and credit for each is given towards graduation. The Glee Clubs meet twice a week and they are working on an operetta to be presented in the spring. The orchestra, which has twenty members, also meets twice a week. It has played for several programs during the year and I feel that these pupils appreciate and enjoy this type of instruction. The class in Music History and Appreciation meets five times a week and is a full credit course. The name implies the content of it. With the use of textbooks and recordings I aim to give these pupils as much knowledge of music facts, composers and compositions as is possible in one year, but most of all I hope to create in them an interest in music which may go with them always, and a desire to enjoy the great masterpieces of music.

With sincere appreciation of the fine cooperation I have received from the superintendent, the school board, and teachers, I respectfully submit this report.

ETHELYN G. EDWARDS,
Music Supervisor.

SCHOOL NURSE'S REPORT

To the School Board and Citizens of Wilton:

I submit my annual report as School Nurse.

Physical examination was completed by Dr. Powers, Dr. Rice and Dr. Elkins, the nurse assisting, in October and November, 1935.

The findings of the Health Examination are included in Mr. Ames' report.

The health standards of Wilton are unusually high this year, fifty-two girls and forty-eight boys are found to be of normal weight, to have made suitable gain for growth and are without uncorrected physical defects including teeth.

Audiometer tests were given school children, Grades II to XII in Wilton and commuting towns last April. A permanent record of hearing acuity of the individual is on file. Three Wilton pupils were found to have low grade hearing in both ears, two to be defective in one ear only, and one to be deaf in one ear.

Diphtheria toxoid was given to twenty-four pupils, grades one and two, at local State Board of Health Clinic in November. Twenty-six future school citizens also received immunization.

Our Chest and Underweight Clinic was omitted this year due to the acute illness and long convalescence of clinician Dr. Robert Kerr, State Tuberculosis Association.

Tonsil and Adenoid Clinics have been used at the County Hospital and Orthopedic Clinics at Manchester District Nursing Rooms and Elliot Hospital. Vision cases have been taken to Dr. Nutter at Nashua. Five underprivileged children have recently had refraction and glasses at the expense of the local Red Cross, and five others are served a hot dish by the Domestic Arts Department.

Room visits are made daily, absences checked and inquiry made by telephone or contact for reason.

In a case of contagious disease, health records of other children in the family and likely contacts of the ill child are of use. Contacts are observed or excluded according to the practice of local and State Department of Health.

We have had one case of German measles and a few cases of a contagious eye infection and the all-prevailing colds this fall. However, with sizeable epidemics of measles and mumps on either side of us, we shall need to be careful.

Respectfully submitted,

EDNA J. GILBERT, R. N.

Wilton, N. H., February 12, 1936.
